

LIFE National Contact Points Network Project

"Concept Proposition"

Marilena Papastavrou

Cypriot LIFE NCP

Department of Environment

Budapest

November 23, 2016

"Background"... before Starting

- Experienced practicalities and formalities of LIFE NCP...
- Exchanged views, opinions and visions, with various LIFE NCPs from other MS...
- Reviewed praxis-modalities-technicalities, but most of all, **impact** of what our Horizon-2020 counterparts do...
- Taken into account the recent aims for LIFE in terms of **professionalized and coherent NCP services**, simplified access to Calls, **lowering of barriers for newcomers**, and **elevation of overall quality of proposals** ...

We... PROPOSE:

- to have a **dedicated budget earmark Action for the support of a transnational LIFE NCP-network, possibly a relevant Preparatory Action within 2017**
- to have **our LIFE-NCP transnational cooperation project...a "LIFE-ncp-net"** (along the lines of the respective H2020 NCP-projects, e.g. SC5-NCP: "NCPs CaRE")

Possible... **ACTIVITIES** (1of2):

- Common **Website** with a common **"Intranet"** (inter-NCP com. & upload of jointly useful info and docs...)

- **Partner-Search Tool**

(for uploading of Clients' Profiles, which are "quality checked" by NCP, for facilitating match-making & Consortium-building)

- **Linkages to Enterprise Europe Network**

as well as other relevant Networks (e.g. H2020-SC5)

- ...**Cross-border Brokerage/ Networking Events, Info-Days, Workshops and Seminars**, with collaboration of NCPs and EC/ EASME (hence avoiding duplications, increasing synergies and enhancing impact to "Clients"/ Applicants)

We would now like...

- to have your preliminary unofficial reactions on the proposition...
- to (hopefully) envisage together the...
“LIFE-ncp-net”

Thank You...!
